

CS452 Computer Security HW 1

Fall 2020

Please find one or two security incidents that you are interested from the security-intro slides and write a case study report about your chosen security incident(s). In your report, please focus on the attack details, and also include an analysis about what could be done to prevent such attacks and what did you learn from your studied case(s).

Your report should be two pages in length, 1 inch margin, 11-point size and single-spaced.

Submission

Please save your report in a **PDF** file (.doc or .docx will NOT be graded), and then submit it through Cougar Course. This homework will be due at **9:00 am, Sep 10th (Thursday)**.
